

19 June 2018

Dear Parent/Carer

We are excited to announce a new parent portal where you will be able to access personal data that we hold on your child. A system generated login email will be sent to you very soon.

To begin with, this will predominantly be the student profile details, and we would ask you to please login and update all personal information that is incorrect or missing, in line with the new GDPR regulations. This will help us to stay in contact with you about important updates. You will also be able to access basic behaviour and attainment data at this time.

As we progress with this project, further fields will become available to you including student reports, progress data, available clubs and much more.

Please be aware that this project is very much in development at the moment, and we are expecting an initial influx of requests for personal details to be changed. Please bear with us over the next few weeks as we deal with these requests and action as necessary. If we have any questions on the change/s that you requested, then we shall be in touch.

We would welcome your feedback on the new system, be it positive or negative, so that we can tailor the software to meet your needs going forward.

If you have any questions or comments, please do not hesitate to get in touch with the Academy using the contact details below.

Yours faithfully

Mrs Stacey Bull
Head of Operations
